

## Inspection Report

Stump Hill Farm  
6633 Klick Street  
Massillon, OH 44646

Customer ID: 2217  
Certificate: 31-C-0050  
Site: 001  
STUMP HILL FARM

Type: ROUTINE INSPECTION  
Date: 19-JUL-2016

### 3.125(c)

#### FACILITIES, GENERAL.

\*\*\* Four metal barrels used to store cat food were found with moldy/wet food and insects inside them. These barrels must be kept sanitary and the food must be stored in a manner to avoid contamination by molding or insect infestation. Feeding of moldy or contaminated food can lead to sickness in the animals. Correct this by storing all food properly.

Correct by: July 22, 2016

### 3.127(d) REPEAT

#### FACILITIES, OUTDOOR.

\*\*\* The facility has made significant improvements by removing brush and trees from inside the perimeter fence. Several trees remain near the perimeter fence in the upper storage area and behind the coatimundi/deer area of the facility. There is also one tree growing through the perimeter fence in the upper East portion of the fence. Trees near the perimeter fence may act as a climbing source for animals should they get out of their primary enclosure. Correct by completing removal or altering of trees in a manner to ensure the perimeter fence can adequately function as a secondary containment system.

THIS IS A REPEAT NON-COMPLIANT ITEM THAT REMAINS UNCORRECTED.

The inspection and exit interview conducted with the licensee, Randy Coleman, ACI, and Mike Neafsey, VMO.

#### Additional Inspectors

Neafsey Michael, Assistant Director

Prepared By: RANDALL COLEMAN, A C I USDA, APHIS, Animal Care
