Certificate: **63-C-0271**  
Site: 001  
CLAUDE & JON CONLEY

Type: FOCUSED INSPECTION  
Date: 18-SEP-2017

### 2.40(a)(1) REPEAT

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The facility has obtained a new attending veterinarian who has been out to the facility, inspected the animals and has written a program of veterinary care. The written program of veterinary care does require additional information to be complete in providing for adequate veterinary care for the animals. The additional information required includes: approved drug use information for all drugs on hand and routinely administered preventative drugs (to include name of drug, species approved and dosage/frequency of administration), approved capture drugs that facility administers (name of drugs, species approved and dosage), preventative shampoo name (hedgehog), name of fly spray to use daily and directions for blood parasite control in bat eared foxes.

This is a focused inspection on the the veterinary care citations on the previous inspection report (2.40a1, 2.40b1 and 2.40b2). All animals cited for veterinary care issues have been evaluated by the attending veterinarian.

This inspection and exit interview were conducted with undersigned facility representative.
