DISNEYS ANIMAL KINGDOM
LODGE

Type: ROUTINE INSPECTION

Date: 25-JUN-2024

2.131(b)(1) Critical

Handling of animals.

During a routine inspection, a review of records revealed the injury and death of two animals associated with handling procedures. On October 20, 2023 during the catch up of chicks, an adult Greater flamingo with identification number 200171 fractured its right leg. The Greater flamingo was euthanized due to a poor prognosis for recovery. On November 19, 2023 an impala with identification number 150575 was being shifted from one enclosure to another. The impala jumped, caught a horn on a fence, and broke its neck resulting in death. Handling of animals should be done as expeditiously and carefully as possible in a manner that does not cause trauma.

To be correct from this day forward, June 26, 2024.

3.133 Critical

Separation.

Records reviewed as part of a routine inspection documented an injury caused by another animal in the enclosure. On December 28, 2022 an impala with identification number 090264 received a fracture of the left front limb during a traumatic encounter with an okapi. The impala was euthanized on December 30, 2022 due to the extensive damage to the elbow and a poor prognosis. Animals housed together should be compatible so that their interactions do not result in trauma or death.

To be correct from this day forward, June 26, 2024.

3.153(a)(1)(iv) Critical

Primary enclosures.

Facility records dated October 15, 2023 documented the death of an Egyptian Goose with identification number 140645. The deceased goose was found deceased in the corridor between the primary and perimeter fence. Necropsy records state, "Near the same time we observed a bobcat with 2 mid-sized kittens emerging from the area. We think she may have entered the savanna to catch him." The report indicated the injuries were consistent with predation. Primary enclosures must be constructed and maintained to restrict other animals from entering the enclosure.

To be correct from this day forward, June 26, 2024.
