

## Inspection Report

Ron Hughes  
Box 39  
Williamstown, MO 63473

Customer ID: **13795**  
Certificate: **43-A-6004**  
Site: 001  
RON HUGHES

Type: ROUTINE INSPECTION  
Date: 28-MAR-2016

### 3.1(c)(1)(2)

#### HOUSING FACILITIES, GENERAL.

##### Sharp points and edges

In an outdoor enclosure, containing 2 dogs, the metal self feeder has sharp points and edges in the trough area. There is also a coated wire used to secure the self feeder that has a sharp point exposed at the dogs eye level while feeding. These sharp points and edges could cause injury to the dogs. The licensee must repair or replace this feeder to remove the sharp points and edges. The licensee must ensure that all enclosures are free of sharp points and edges to prevent the dogs from becoming injured.

To be corrected by: 30 Mar 16

### 3.4(b)(3)

#### OUTDOOR HOUSING FACILITIES.

##### Wind and Rain break

In 2 outdoor enclosures, housing 4 dogs, there is no wind and rain break at the entrance to the shelter. A wind and rain break is essential to protect the dogs from the effects of wind and/or rain. The licensee must provide these shelters, and ensure that all outdoor shelters, are provided with an effective wind and rain break at all times.

To be corrected by: 30 Mar 16

### 3.4(b)

#### OUTDOOR HOUSING FACILITIES.

##### Shade

In an outdoor enclosure, containing 1 dog, there is no shade provided. Shade is necessary to protect the dog from the direct rays of the sun. The licensee must provide this enclosure and ensure that all outdoor enclosures are provided with a shade structure to protect the dogs from the direct rays of the sun during all daylight hours.

To be corrected by: 30 Mar 16

### 3.9(b)

#### FEEDING.

Received by Title: CERT MAIL #70121010000200071914

Date:  
29-MAR-2016

## Inspection Report

---

### Food receptacle

In 2 outdoor enclosures, containing 4 dogs, there are metal self feeders that have wet food and caked food on the inside area. Wet and caked food can become moldy and cause illness to the dogs. The licensee must remove the wet and caked food from and clean the self feeders. The licensee must also protect the food receptacles from rain and/or snow.

The licensee must ensure that all food receptacles are protected from the rain and snow and ensure that measures must be taken to ensure that there is no molding, deterioration, and caking of feed in the self feeders.

To be corrected by: 30 Mar 16

Inspection and a verbal exit interview was conducted with licensee and ACI Stephanie Osborne.
