FACILITIES, GENERAL.

The metal fence panel for the goats and llama is broken at the south side of the outdoor section of their enclosure. This break creates a sharp point which could injure the animals. This panel needs to be repaired or replaced.

The metal fence panels on the east side for the zebra and zebu enclosure has separated which has created sharp points. In this same area one of the support wooden fence boards is broken. These areas are in need of repair or replacement.

The wooden pallets in the pig enclosure have broken boards on the top which can injure the animal. These pallets need to be repaired/replaced or removed to protect the pig from possible injury.

Correct by: 05-29-15.

An exit briefing was conducted with the Owner.
