Handling of animals.

The licensee reported that on October 20, 2024 a Swainson's Hawk escaped from the enclosure. The licensee had opened the door to replace perching and the hawk flew past them. The hawk has not been recovered despite efforts to retrieve it. Escaped animals may suffer physical harm, trauma, and stress. The facility must address handling to ensure animals are handled as expeditiously and carefully as possible to minimize these risks. At the time of inspection corrective actions made by the facility included installing a curtain to function as a secondary door.
