### 2.134(a)

#### Contingency planning.

The contingency plan was not available for review at time of inspection and facility employees did not indicate they were trained on the plan. A plan is important to be in place to be prepared for unexpected disasters or events. A contingency plan is required to be in place by July 5, 2022 as well as all employees trained on the plan within 60 days of that date. A plan must be developed and available for USDA review and employee training documented.

Correct by: 11/19/2022.

### 3.131(c)

#### Sanitation.

Empty plastic bags and other discarded items are present in the corner of the room housing the sloth. Clutter and trash may create an environment that may attract pests which can cause harm to animals. Accumulations of trash shall be placed in designated areas and cleared as necessary to protect the health of the animals.

Correct by: 10/31/2022.

This inspection and exit briefing were conducted with facility employees.
