KATHY MILLER

Type: ROUTINE INSPECTION
Date: 09-JUN-2016

3.1(c)(3)

HOUSING FACILITIES, GENERAL.

The wash down under the pens on the right side of the building has a significant build-up of deposits. The deposit layer adds to the odor in the facility. This build-up also attracts flies. The odor and the flies are unhealthy for the dogs and may cause disease.

The washdown should be thoroughly cleaned and maintained clean to prevent the build-up of deposits and to reduce the odor in the facility.

Correct by: June 10, 2016

Inspection and exit interview conducted with owner and ACI Linn.
