Site: 002

Coyote Consulting Company Inc

Type: ROUTINE INSPECTION

Date: 01-AUG-2024

3.131(c)

Sanitation.

The pigs were housed in enclosures with a solid back wall made of concrete and with side and front walls made of metal fencing. The following housekeeping issues were noted during the inspection of the animal housing room. Many of the enclosures were noted to have a build-up of large cobwebs and particulate debris on the surface of the back wall and on the side/front walls, and there was also a build-up of large cobwebs and particulate debris present on the walls above the enclosures.

Per this Section, premises housing animals shall be kept clean to facilitate the prescribed husbandry practices and to protect the health of the animals. The housing room and the walls of the enclosures need to be cleaned and the level of housekeeping in the area needs to be improved to facilitate prescribed housekeeping practices and for the health of the animals. Correct by 8/20/24.

This inspection and exit briefing were conducted with facility representatives.
