Certificate: **58-B-0469**

Site: 001

THE TROPICAL RAINFOREST
PRESERVE INC

Type: ROUTINE INSPECTION

Date: 09-APR-2024

2.1(b)(2)(i)

Requirements and application

The licensee is approved to have a maximum of 100 animals on hand at any single point in time during the period of licensure. The animal count at the time of inspection was 124. No more than 100 total animals can be held at the facility under the current license. Licenses are issued for the number of animals appropriate to a particular facility. Exceeding those numbers can increase the likelihood of welfare concerns due to the higher population of animals and the associated maintenance and cleaning requirements. The licensee must reduce the animal population at the facility to 100 or obtain a new license. Correct by: May 10, 2024

3.78(d)

Outdoor housing facilities.

The perimeter fence behind the marmoset enclosures had multiple areas where the fence did not meet the ground. These deficiencies created openings large enough for animals the size of dogs, skunks, or raccoons to go under the fence and have contact with the primates. The perimeter fence must be constructed so that it protects nonhuman primates by restricted unauthorized humans, and animals the size of dogs, skunks, and raccoons from going through it or under it and having contact with the nonhuman primates. Correct by May 3, 2024.

This inspection and exit interview were conducted with the licensee.
