TROY & JODY GRANT

Type: ROUTINE INSPECTION
Date: 13-MAR-2014

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Under section II. A. Vaccinations for Dogs and Cats, the licensee had check marks in the juvenile and adult boxes. There was no frequency specified for either juvenile or adult dogs listed. Frequency of vaccinations is necessary to ensure that the dogs are receiving adequate protection from the vaccines.

Under section III. A. Vaccinations for Wild and Exotic Animals, the licensee had listed the species Lynx receiving Distemper, Rhinotracheitis, Chlamydia, Panleukopenia, Calici but did not list the frequency. When questioned the licensee stated that they also vaccinate the Foxes and Skunks with Vanguard 5 but did not have them listed on the Program of Veterinary Care nor the frequency under the vaccination section. Frequency of vaccinations is necessary to ensure that all affected animals are receiving adequate protection from the vaccines.

The licensee must update the current Program of Veterinary Care to include frequency of vaccinations for dogs, and all other wild animals that require vaccinations to include the frequency.

To be corrected by: 27 Mar 14.

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

There are at least 5 Skunks, 1 Albino and 4 black and white, that have excessively long toe nails. On at least one of the skunks some of the nails have broken. Excessively long toenails can break causing pain and/or injury, and can cause the feet to splay abnormally affecting the animals natural posture. The licensee must trim the nails of these skunks feet.

To be corrected by: 20 Mar 14

2.50(b)(1)

TIME AND METHOD OF IDENTIFICATION.

Inspection Report

There are four Westhighland Terriers present that did not have any form of official identification. Official identification is required in order to facilitate the required record keeping and to give each dog their own unique identification. Licensee must provide these dogs with proper identification. Licensee must ensure that all dogs have proper identification at all times.

To be corrected by: 13 Apr 14

2.75(a)(1)

RECORDS: DEALERS AND EXHIBITORS.

The licensee did not have the required Record of Acquisition for Dogs and Cats (APHIS form 7005). The APHIS form 7005 (Record of Acquisition for Dogs and Cats) is necessary to allow for proper record keeping, identification, and tracebacks. The licensee must fill out the APHIS form 7005 (Dogs on Hand) completely to reflect the necessary information on all dogs.

To be corrected by: 27 Mar 14

Inspection and a verbal exit interview was conducted with licensee on 13 Mar 14. Report will be sent via email.
