Type: ROUTINE INSPECTION  
Date: 11-APR-2023

---

### 3.81 Repeat

#### Environment enhancement to promote psychological well-being.

At the time of inspection, the USDA inspector observed enrichment items within enclosures; however, the environmental enhancement program was not available for inspection. An environmental enhancement plan that documents the appropriate provisions to provide enrichment and special considerations (such as single-housed non-human primates and infants) must be directed by the attending veterinarian and available for inspection. This is necessary to ensure the psychological well-being of the animals. Ensure that a documented plan for environmental enrichment that addresses the required elements is maintained and available for inspection.

This inspection and exit interview were conducted with a facility representative.
