Notification of arrival.

Records received from U.S. Customs And Border Protection in Brownsville TN stated that Mr. Meyers, acting as transporter for an Illinois based rescue group, did not present a USDA Live Dog Import permit upon arrival at the port with twenty four dogs on 1/11/2024. The dogs were to be imported into the United States from Belize and Honduras without the required documents including a Live Dog Import permit from USDA Animal Care. The dogs were ultimately released by CBP into the United States.

Appropriate documents, including a Live Dog Import permit and any applicable certifications, are required to import dogs into the United States to ensure that they are healthy and free of infectious diseases and parasites. Upon arrival of a dog at the port of first arrival in the States, the person intending to import the dog, or his or her agent, must present the import permit and any applicable certifications. Correct by 2/14/24.

This records inspection and exit interview were conducted with the registrant.
