Keymar, MD 21757

Customer ID: **333385**
Certificate: **51-C-0111**
Site: 001
DEER HAVEN MINI ZOO

Type: ROUTINE INSPECTION
Date: 26-APR-2016

3.127(d)

FACILITIES, OUTDOOR.

***Bear Perimeter Fence: The perimeter fence around the bear enclosure is damaged from a fallen tree. One section of the chain link fence is sagging to the point that the structural strength of the fence is compromised. The top fence support poles were bent and some have been removed. A perimeter fence must be constructed in a manner that protects the animals and prevents entry of unauthorized person and unwanted animals. The perimeter fence must be repaired to maintain the integrity of the fence and to ensure the unwanted animals and persons do not come in direct with the bear. Correct by April 30, 2016.

3.131(c)

SANITATION.

***One of two shelters in the sheep enclosure had a large hole on the right side. Shelters and any structures within an enclosure must be kept in good repair to prevent injury to the animals. The shelter must be removed for the safety of the animals. Corrects April 28, 2016

The exit briefing was conducted with the owners.
