### 2.40(a)(1) REPEAT

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

There is still no program of veterinary care available for review at either location. This was also an issue on inspections in 2015 and 2016 . Licensees stated the veterinarian has not made a premise visit at either location in the last year. The program of veterinary care must be available for review at time of the inspection and the veterinarian must make regularly scheduled visits to assure that adequate veterinary care is provided. Blank copies of the program of veterinary care form were left at each location at time of the inspection.

### 3.125(a)

#### FACILITIES, GENERAL.

The sheet metal is torn on the right side of the shelter for the enclosure housing 2 goats and 1 sheep at the FM road location. The jagged edge of the metal is a potential area for animal injury. This area must be repaired and the enclosures must be maintained in good repair to protect the animals from injury .

CORRECT BY : 7/31/17

The inspection and exit briefing were conducted with the board member at the first location and with the founders at the 2nd location.
