Site: JFK

AEROFLOT RUSSIAN AIRLINES

Type: ROUTINE INSPECTION

Date: 23-JUN-2021

3.14(c)

Consignments to carriers and intermediate handlers.

Item 3.14 c

On June 23, 2021 Aeroflot airlines flight SU 102 transported in cargo approximately 55 kennels containing dogs. An inspection of at least 20 of those kennels showed that the carrier had accepted these animals without the consignors' certification, in writing, that the dogs were offered food and water during the 4 hours prior to delivery to the carrier. These primary enclosures did not have the certification securely attached to the outside.

The airline must not accept a dog or cat for transport unless the consignor provides certification for food and water and the certification is attached to the primary enclosure.

3.15(c)(2)

Primary enclosures used to transport live dogs and cats.

Item 3.15 c 2

On June 23, 2021 Aeroflot airlines flight SU 102 transported in cargo approximately 55 kennels containing dogs. Approximately 20 of the kennels were hand made of wood, these kennels did not have any projecting rims on the front side of the kennels and the projecting side rims when measured were only one-half of an inch (0.5) The projecting rims or similar devices must be large enough to provide a minimum air circulation space of .75 of an inch between the primary

Inspection Report

enclosure and anything the enclosure is place against.

The carrier must ensure there is adequate ventilation for the dogs and cats in transport.

This inspection and exit interview were conducted with the facility representative.
