

Inspection Report

Ocala Wildlife Sanctuary
2020 SW 5th Ave
Ocala, FL 34471

Customer ID: **328062**
Certificate: **58-C-1056**
Site: 001
Ocala Wildlife Sanctuary

Type: RE-LICENSE INSPECTION
Date: 25-JUN-2024

3.150(e)

Facilities, general.

In the walk-in freezer, there are multiple zip lock bags of rats that have leaked red fluid onto bags of bird seed stored on the shelf below. There are also several bags of parrot food that are being stored directly on the floor of the freezer. Spilled seeds and pellets can be seen on the floor under and around bags of feed.

Inappropriate food storage can lead to contamination of food and impact the quality of the feed or cause illness in the animals. Storing food supplies on the floor and against the wall can make it difficult to clean and lead to an increased number of pests. Supplies of food, including food supplements, bedding, and substrate must be stored in a manner that protects against deterioration, spoilage, contamination, and vermin infestation. The supplies must be stored off the floor and away from the walls, to allow cleaning underneath and around the supplies. All food must be stored in a manner that prevents deterioration of its nutritive value.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 08/24/2024 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
