Type: ROUTINE INSPECTION

Date: 06-JUL-2023

3.26(d)

Facilities, indoor.

Interior surfaces. There are some unsealed wood shelves and wooden boards in the former mouse building which now houses hamsters. Interior building surfaces must be constructed and maintained so that surfaces are impervious to moisture so that they can be repeatedly cleaned and sanitized and won't retain odors or moisture. Bare wood on hamsters shelves and racks must be sealed or covered with an impervious surface. Correct by September 6, 2023.

This inspection and exit interview were conducted with the licensee.
