Type: ROUTINE INSPECTION
Date: 01-NOV-2016

3.127(b)

FACILITIES, OUTDOOR.

One outdoor shelter used by one goat has missing wood along the bottom on two sides. This shelter does not provide adequate protection against local climatic conditions. The inability to provide adequate shelter from local climatic conditions could cause discomfort to the animal and adversely impact their health and well-being. Artificial shelters appropriate to the local climatic conditions for the species concerned shall be provided for all animals kept outdoors to afford them protection from the climatic conditions and to prevent discomfort. The licensee must ensure that all animals being housed outdoors must have access to natural or artificial shelter that adequately provide protection against all climatic conditions. Correct by 11/15/16.

3.130

WATERING.

* One plastic water receptacle used by one goat has a brownish looking deposit collecting on the interior wall and bottom of this receptacle. The receptacle is located in an outdoor enclosure. It indicates this water receptacles is not being adequately cleaned and sanitized. It could lead to water contamination and potential health risks. The licensee must ensure all water receptacles shall be kept clean and sanitary. Correct by 11/8/16

* Copy of inspection report was sent by certified and regular mail.
