Certificate: **23-A-0693**
Site: 001
AARON R STOLTZFUS

Type: ROUTINE INSPECTION
Date: 20-JAN-2022

3.29(d) Repeat

Feeding.

The metal feeders in all of the guinea pig enclosures had a build-up of rust coating the outside surface of the feeder.
Rust on surfaces prevents adequate cleaning and sanitizing which can lead to disease spread.
Food receptacles must not contain an excess amount of rust and must be kept clean.

This inspection and exit interview were conducted with the licensee.
