BARBARA A PERCIVAL

Type: FOCUSED INSPECTION  
Date: 24-MAY-2018

### 3.127(d)

#### FACILITIES, OUTDOOR.

The wallabies have been moved to an outdoor enclosure. The outdoor enclosure does not have a perimeter fence.

All outdoor housing facilities or non-dangerous animals must have a 6 foot perimeter fence. The fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility. It must be of sufficient distance from the outside of the primary enclosure to prevent physical contact between animals inside the enclosure and animals or persons outside the perimeter fence.

A perimeter fence must be erected or a perimeter fence variance requested.

To be corrected by June 24, 2018.

This inspection and exit interview were conducted with the licensee.

This was a focused inspection on the wallaby enclosure.
