On a Wing and a Prayer

Type: ROUTINE INSPECTION
Date: 19-AUG-2025

2.134(b)

Contingency planning.

Facility records show the last documented review of the Contingency Plan to be the date it was put into place in February, 2024. The licensee confirmed that there has been no formal and documented review of the Contingency Plan since that date. Timely review of the contingency plan helps ensure that any needed changes are made and communicated to all personnel that have a role or responsibilities in the plan to help avoid animal discomfort, illness, injury or death in the event of an emergency or disaster. The licensee must ensure that the contingency plan is reviewed on at least an annual basis to confirm that it adequately addresses the criteria listed in Section 2.34(a) and must also maintain documentation of those reviews, to include any amendments or changes made to the plan since the previous year's review. Additionally, changes must be communicated to applicable personnel within 30 days. Contingency plans, as well as all annual review documentation and training records, must be made available to APHIS and any funding Federal agency representatives upon request.

TO BE CORRECTED BY SEPTEMBER 1, 2025

This inspection and exit interview were conducted with the licensee.
