

## Inspection Report

CNK Ventures LLC  
1824 W Baseline Rd  
Mesa, AZ 85202

Customer ID: **6013884**  
Certificate: **86-B-0070**  
Site: 001  
CNK Ventures LLC

Type: ROUTINE INSPECTION  
Date: 25-NOV-2024

### 2.40(a)(1) Repeat

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

At time of inspection there is no written program of veterinary care available for review. The facility representative stated that no corrections have been made since the last inspection. Failure to maintain a program of veterinary care may put animals at risk for injury and illness and impedes APHIS Officials' ability to carry out their duties. Each dealer shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer.

### 2.75(b)(1) Repeat

#### Records: Dealers and exhibitors.

No disposition records were available for 2 African dormice that were sold since the last inspection according to the facility representative. Failure to maintain required records impedes APHIS officials' ability to perform their duties and fully assess welfare and traceability of regulated animals. Every dealer shall make, keep, and maintain records or forms which fully and correctly disclose information concerning animals that are purchased or otherwise acquired, or which are transported, sold, euthanized, or otherwise disposed of by the dealer.

### 2.134(a) Repeat

#### Contingency planning.

The facility representative stated there is no written contingency plan. Contingency plans help prepare facilities on how to provide humane handling of animals during emergencies. The dealer must develop a complete contingency plan tailored to the facility and animals on hand. All employees must be trained on their roles and responsibilities within this plan and the facility must maintain documentation of annual reviews of the plan.

This inspection and exit interview were conducted with the facility representative.
