Arbuckle Adventures LLC  
6132 KAY STARR TRAIL  
DAVIS, OK 73030

Customer ID: **324698**

Certificate: **73-C-0190**

Site: 002

ARBUCKLE ADVENTURES, L L C

Type: ROUTINE INSPECTION

Date: 21-APR-2025

### 2.40(b)(2) Direct

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

- An elderly male buffalo is extremely thin and muscle wasted. He was observed by inspectors showing some reluctance to stand from a sternal position when offered feed by the facility. This animal has not been evaluated by a veterinarian to assess his health and condition. Significant weight loss in an older animal could be due to many different problems, ranging from internal illness to a reluctance to compete for food with other animals. Exhibitors must establish and maintain programs of adequate veterinary care that provide appropriate methods to prevent, control, diagnose and treat diseases and injuries to protect the health and welfare of animals housed in the facility. This buffalo must be evaluated by a licensed veterinarian within 5 business days and treated in an appropriate manner depending on the recommendation of the veterinarian.

Correct by 26 April 2025

### 3.125(a) Repeat

#### Facilities, general.

- The enclosure fence for the male camel is sagging and loose in multiple locations. There are signs that the camel has been rubbing on part of the fence. The current fence is an ineffective enclosure barrier and is also a risk of injury or entrapment to the animal. Outdoor housing facilities shall be structurally sound and maintained in good repair to contain and protect animals from injury. The facility must repair or replace the fencing in order to safely contain and protect the camel.

This inspection and exit interview were conducted with licensee.
