Phillipsburg, MO 65722

Customer ID: **16406**
Certificate: **43-B-3620**
Site: 001
JOSH SOUZA

Type: ROUTINE INSPECTION
Date: 27-JUL-2015

2.50(a)(2) REPEAT

TIME AND METHOD OF IDENTIFICATION.

***In the broker area there were two Shih Tzu puppies and one Beagle puppy housed in the same enclosure and in the whelping area, there were ten puppies. None of these puppies had individual identification. There were two plastic type collars laying in an empty cage in the whelping area, yet both of these collars had the same numbers listed on them. Appropriate identification of dogs is necessary to meet recordkeeping requirements for inventory, disposition, transport, and healthcare documentation. The licensee must identify all puppies that are less than 16 weeks old. Acceptable forms of identification include a microchip, a collar and tag, a plastic-type collar with the required information legibly written, or a cage card as long as all the puppies in the enclosure are from the same litter.

This inspection began at 1035.

The inspection and exit conference were conducted with the facility representative, Konnie Plumlee, VMO and Beverly Hicks, ACI.

End of report.
