Newport News, VA 23601

Customer ID: **2476**

Certificate: **52-C-0004**

Site: 001

Virginia Living Museum Inc

Type: RE-LICENSE INSPECTION

Date: 15-APR-2025

---

### 3.125(a)

#### Facilities, general.

There are several animal enclosures with areas in disrepair. There are areas of flaking paint, rusty and flaking metal, broken areas of welded metal, and/or sharp metal edges in the red fox, coyote, woodchuck, and American beaver shelters/shift areas. For example, the lid of the porch on one red fox enclosure has flaking pieces of rusted metal that is easily accessible to the fox and can either fall into the enclosure or on the animal. In the American beaver night boxes, some metal bars are rusted and pieces of metal that fell off around the base of a bar when touched by the inspector. Areas with flaking paint and rust can lead to accidental ingestion by the animals, while sharper edges of metal can cause injury. Correct by ensuring all facilities are maintained in good repair to protect the animals from injury and to contain the animals.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by June 15, 2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
