Type: ROUTINE INSPECTION

Date: 24-JAN-2024

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

While checking expiration dates in medicines in the kitchen area found at the Florida walk through aviary, a bottle of Mazuri Large Bird Supplement bottle with an expiration date of January 10, 2024, was found. Expired supplements may be degraded, and potency decreased. Therefore, they will not provide the benefits as labeled. The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, includes the prevention of using expired supplements.

Corrected by the end of inspection.

3.125(a)

Facilities, general.

The new fence around the Bongo Quarantine barn was found to have two nails protruding from the bottom of the fence. The nails were far enough out that it can cause injury to the legs of the animals house in this enclosure. The outdoor facility must be constructed in a way that protects animals from injury.
Correct by the end of inspection.

This inspection and exit interview were conducted with Facility Representative.
