BRANTLEY FARMS

Type: ROUTINE INSPECTION
Date: 21-AUG-2014

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

***The program of veterinary care was incomplete. The program needs to be updated to include the pigs, rabbits, and llamas. Also the euthanasia protocol needs to be more specific. The program needs to be complete so that the appropriate measures can be taken and promptly addressed. Correct August 28, 2014.

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

***The acquisition records does not include the offspring born of the lambs, goats and pigs on the premises. The records shall include offspring born of any animals while in his or her possession on under his or her control to provide proper inventory of animals on hand and/or assist in tracking animals if they become sold. Correct by August 28, 2014.

3.56(a)(1)

SANITATION.

***The rabbits cage had caked up old food, hair and some other wet substance within their primary enclosure. Primary enclosures shall be kept reasonably free of excreta, hair, cobwebs and other debris by periodic cleaning to minimize disease and illness. Measures shall be taken to prevent the wetting of rabbits in such enclosures if a washing process is used. Correct by August 28, 2014.

3.125(a)

FACILITIES, GENERAL.

***Two piglets escaped from their primary enclosure and was running around the facility. One pig was in the goats enclosure where he was getting pushed around by other goats and the owner did not know how he got in there. The second pig was running around inside the public area of the petting zoo which was open for it to get out. The facility must be constructed of such material and of such strength as appropriate for the animals involved. The outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury
