Type: ROUTINE INSPECTION  
Date: 18-MAR-2014

---

### 3.75(c)(3)

#### HOUSING FACILITIES, GENERAL.

The floor of the indoor sheltered portion of the sheltered housing for 3 celebes macaques needs to be cleaned. Water and excreta have soaked the bedding leading to no dry area for the macaques to rest on inside. Lack of clean, dry floors will lead to odors, potential disease hazards and may discourage the animals from coming inside during inclement weather. Hard surfaces must be spot-cleaned daily and absorbent bedding must be raked or spot-cleaned as often as necessary for the macaques to avoid contact with excreta; contaminated material must be removed and/or replaced when spot cleaning is insufficient. Correct by 3/20/14.

Exit conducted with facility representative.
