Certificate: **15-C-0020**
Site: 001
BLOCK ISLAND RESORTS

Type: ROUTINE INSPECTION
Date: 08-SEP-2015

2.75(b)(1) REPEAT

RECORDS: DEALERS AND EXHIBITORS.

Records for animals other than dogs and cats.

1. There was incomplete acquisition information (sheep, alpaca, rabbit) or disposition information (kangaroo) for 4 animals that had either been acquired by or are no longer at the facility.

Per this Section of the Regulations, complete information regarding animal acquisition and disposition is required to be kept in order to account for all animal transfers and to track the movement of animals at a licensed exhibitor.

3.125(a) REPEAT

FACILITIES, GENERAL.

Structural strength.

1. The shared fence between the adjacent camel and kangaroo pens was constructed of a layer of rectangular wire mesh attached to horizontal wooden boards. There was one area of the fence about 4 feet from the ground where the coated wire mesh had detached from the boards and was curling into the camels' pen resulting in a space approximately 6x6 inches in size. There was another area of the fence along the ground where the uncoated wire mesh was rusted, and the wire was broken in a couple of places resulting in sharp points as well as a space approximately 4x6 inches in size. The 2 damaged areas of the shared fence could cause injury to the animals' face, nose, mouth, tongue or the skin on their limbs. This item affected 2 camels and 2 kangaroos.

Per this Section of the Regulations, outdoor housing facilities should be structurally sound and maintained in good repair to protect the animals from injury.

NOTE - Exit interview held 9/8/15 on-site with facility representatives. Report delivered by e-mail 9/9/15.
