### 3.150(a)

#### Facilities, general.

The interior ceiling of the bird trailer housing the budgies needs to be addressed. The budgies have been pecking and peeling off the cardboard material of the ceiling creating gaps between the metal roof and interior ceiling. This ceiling needs to be fixed to prevent the birds from having access to the metal roof and to keep the trailer in good repair for the safety of the budgies.

### 2.75(b)(1)

#### Records: Dealers and exhibitors.

The current records of animals on hand do not accurately reflect the animals at the facility. The records do not disclose the date of death for the porcupine, kangaroo and budgies that recently passed away. Nor is there a record for the date of the porcupine and kangaroo births at the facility. These records need to be maintained in an accurate and timely manner to promote good recordkeeping practices.
