Per this Section, one of the functions of the IACUC is to prepare reports of the Committee's semi-annual evaluations of the program for animal use and its inspection of the facilities. The report must contain a reasonable and specific plan and schedule with dates for correcting each deficiency. This reporting process ensures that the Institutional Official is kept informed and provided with accurate information on the status of the research facilities. Correct from this date 1/16/25 forward for all future semi-annual reports to the Institutional Official that include deficiencies identified by the IACUC.

This inspection and exit briefing were conducted with facility representatives.
