Type: ROUTINE INSPECTION

Date: 05-AUG-2024

---

### 3.153(a)(2)

#### Primary enclosures.

A wooden nestbox and a wooden perch for 12 rainbow lorikeets in an indoor enclosure with protected outdoor access are in disrepair. The nestbox and perch are worn down by chewing resulting in possible sharp points or splintering on the surfaces. Some of the birds in the enclosure are actively nesting or have recently reared young lorikeets. Failure to maintain furniture-type objects, such as perches, in the primary enclosure may result in injury to the birds or render surfaces unable to be properly cleaned and sanitized. Furniture-type objects, such as perches and other objects that enrich a bird's environment, must be maintained in good repair to protect the birds from injury.

Correct by 06 October 2024.

This inspection and exit interview were conducted with the facility representatives.
