Type: ROUTINE INSPECTION
Date: 06-NOV-2014

3.11(b)(2)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

There are several food receptacles being used to feed the dogs in the outdoor housing portion that have accumulations of dirt and grime in and around the food bowl area. Dirty food receptacles can lead to an increase in disease transmission. All food receptacles must be cleaned and sanitized at least once every two weeks or more often to prevent an accumulation of dirt, debris, food waste, excreta and other disease hazards. Correct by 10 November 2014.

This routine inspection and exit interview were conducted with a facility representative.

Additional Inspectors

Shaver Margaret, Veterinary Medical Officer
