### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The licensee was unable to provide a written Program of Veterinary Care at the time of this inspection. A written Program of Veterinary Care must be available for review during USDA inspections. The written document must include the following:

- " The veterinarian s schedule for visits to the facility
- " Recommendations for nutrition appropriate for the species
- " Recommendations for cleaning appropriate for the species
- " Parasite control program if appropriate for the species
- " Vaccination recommendations if appropriate for the species
- " Instructions on necropsies for unexpected deaths
- " Any other recommendations the veterinarian feels necessary for your facility.
- " Emergency contact information.

This document must indicate to USDA that you and your veterinarian have an active working relationship.

To be corrected by: Feb 1, 2014

#### RECORDS: DEALERS AND EXHIBITORS.

Records of animals sold were not accurate. Records indicated animals were sold retail by an employee to individuals. Animals were actually sold wholesale to one person, and then resold to individuals. The person who pays the licensee for the animals must be identified as the buyer. This needs to occur for several reasons. First so that USDA can track all covered activity the animals are subjected to. Second so that the licensee is not mistakenly blamed for problems with the animals once they leave the licensee' s control.

To be corrected immediately.

Inspection and exit interview conducted with the licensee.
