PROMISED LAND ZOO  
BRANSON

Type: ROUTINE INSPECTION

Date: 22-MAY-2023

### 3.81(a)(3)

#### Environment enhancement to promote psychological well-being.

An adult, female Olive Baboon has been housed alone without the ability to see and hear other nonhuman primates ever since its mate died several months ago. The baboon enclosure is in the drive-through portion of the facility where there are no other primates being housed. Baboons are social animals and being housed in a solitary situation can be harmful to their psychological well-being resulting in mental and/or physical distress. The licensee must ensure that this animal is housed close enough to other nonhuman primates of its own or compatible species so that it can see and hear them.

To be corrected by June 15, 2023.

This inspection and exit interview were conducted with facility representatives.
