GEORGE CLOVEN & RUTH CLOVEN

Type: ROUTINE INSPECTION  
Date: 03-NOV-2016

### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

There was no written Program of Veterinary Care (PVC) available at the time of inspection. In order to ensure problems of animal health are addressed adequately, there needs to be a written PVC. The written PVC shall include the species being utilized or sold in regulated activities, preventative care, common health problems they may have and how these will be addressed by the licensee and the Attending Veterinarian. Ensure that the formal arrangement with the Attending Veterinarian includes a detailed written Program of Veterinary Care and is made available for review during the inspection process.

To be corrected by: Next Inspection

### 2.50(c)(2)(ii)

#### TIME AND METHOD OF IDENTIFICATION.

Licensee did not during the time of inspection have a record book containing the required information for two dogs (Luke and Mona Mi) used for exhibition. Identification tags, written descriptions, and clear photographs of these animals were not available. Appropriate identification of dogs used in exhibition is necessary to ensure that animals have been acquired legally and are able to be tracked to ensure humane transport, care, and use in regulated activities. Licensee shall identify all dogs under his or her control whether held, purchased, or otherwise acquired with the required identification methods under this Section of the AWA regulations.

To be corrected by: Next inspection

This inspection and exit briefing were conducted with the licensee.
