CHRISTIE SCARUPA PRESTI

Type: ROUTINE INSPECTION

Date: 27-JUN-2017

---

### 3.75(e)

#### HOUSING FACILITIES, GENERAL.

The plastic containers in the main animal area containing the fruit and vegetables used in the non human primates' diet were found to contain deteriorated food that had attracted a number of flies. A un-refrigerated yogurt was also seen in the food prep area. These fruits and vegetables must be kept in a manner to prevent spoilage and infestation of pests. Any dairy products requiring refrigeration must be put back in a timely manner. The feeding of spoiled food can cause the animals to become ill. The food provided must be nutritious and stored in an acceptable manner.

Correct by July 12, 2017

This inspection and exit interview were conducted with the facility representative.

#### Additional Inspectors

D Ambrosio Andrea, Animal Care Inspector
