

## Inspection Report

Prescott Animal Park Assn.  
1403 Heritage Park Rd.  
Prescott, AZ 86301

Customer ID: 3452

Certificate: 86-C-0082

Site: 001

PRESCOTT ANIMAL PARK ASSOCIATION

Type: ROUTINE INSPECTION

Date: 09-AUG-2016

### 3.75(e)

#### HOUSING FACILITIES, GENERAL.

\*\*\*The walk-in cooler contained an excessive amount of moldy produce (fruit) that may have been fed to regulated animals. APHIS VMO noted several containers of moldy fruit on several shelves. Feeding moldy food to animals poses a health risk and the nutritive value of that food is unknown. Food for regulated animals must be stored in a manner that maintains its nutritive value and remains uncontaminated.

\*\*\*The walk-in cooler contained open bags of primate feed that was not stored in containers with tightly fitting lids. APHIS VMO noted one open bag of primate feeding sitting on a shelf in the walk-in cooler. Additionally, there were several bags of open primate feed in a leak proof container, however, the container was full to the point the lid no longer fit tightly. Storing feed in this manner does not prevent spoilage or contamination. Only the food and bedding currently being used may be kept in animal areas, and when not in actual use, open food and bedding supplies must be kept in leakproof containers with tightly fitting lids to prevent spoilage and contamination.

To be corrected by 8/17/16.

### 3.81 REPEAT

#### ENVIRONMENT ENHANCEMENT TO PROMOTE PSYCHOLOGICAL WELL-BEING.

\*\*\*An environmental enhancement plan to promote the psychological well-being of the nonhuman primates currently housed at this facility is still incomplete. The plan, at a minimum, must address each of the following: social grouping, environmental enrichment, special considerations, restraint devices and exemptions, when applicable. Currently, the plan made available during inspection, only addresses environmental enrichment. The plan must be completed, in accordance with the currently accepted professional standards as cited in appropriate professional journals or reference guides, and as directed by the attending veterinarian.

### 3.131(c)

#### SANITATION.

\*\*\*The walk-in freezer was dirty. On the floor of the freezer was build up of debris and wrappers/empty bags. Additionally, there was an excessive amount of what is presumed to be frozen blood on the freezer floor. Dirty and

## Inspection Report

---

unkept freezers used for storing feed for regulated animals may contaminate the food and pose a health risk to the animals if fed. Premises (buildings and grounds) shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart.

To be corrected by 8/17/16.

Inspection and exit briefing were conducted with facility representatives.
