

Inspection Report

Rock Cats Rescue Inc
700 Anderson Road
Griffin, GA 30223

Customer ID: **507172**
Certificate: **57-C-0377**
Site: 001
ROCK CATS RESCUE INC

Type: ROUTINE INSPECTION
Date: 31-MAY-2024

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There was no written program of veterinary care for the chickens maintained within the facility. A written program of veterinary care is needed to establish an adequate standard of veterinary care for the animals on hand. In coordination with the attending veterinarian, the facility must establish and document a program of veterinary care for the birds. Correct by 07/01/2024.

3.1(a)

Housing facilities, general.

In the large living room attached to the kitchen, where the kitten enclosures resided, there were at least 3 exposed active electrical cords. Electrical cords can pose a health hazard to animals that may pull or chew on them.

The day before inspection, on May 30, 2024, an employee's personal cat was able to break into the kitchen, which is accessible to some regulated animals, by jumping through a damaged portion of the door's screen. The employee's cat got into an altercation with one of the kitchen residents. The damage to the door did not allow for adequate restriction of other animals from entering.

Housing facilities must be kept in good repair to protect the animals from injury, contain the animals securely and restrict other animals from entering. Correct by 06/24/2024.

3.154

Environment enhancement to promote psychological well-being.

The facility does not have a written environmental enhancement plan for the chickens on hand. A written plan is necessary to ensure that the overall health, well-being, and psychological needs of the birds are being appropriately met. The facility must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of chickens. The plan must be approved by the attending veterinarian and must address social grouping, environmental enrichment, special considerations, restraint devices, and exemptions. Correct by 07/01/2024.

This inspection and exit interview were conducted with a facility representative.
