

Inspection Report

Wild Florida
3301 Lake Cypress Rd
Kenansville, FL 34739

Customer ID: **325812**
Certificate: **58-C-1024**
Site: 001
WILD FLORIDA

Type: ROUTINE INSPECTION
Date: 08-AUG-2017

2.75(a)(1)

RECORDS: DEALERS AND EXHIBITORS.

Three records of disposition were missing the USDA or driver license numbers of the receiver. This needs to be recorded.

Correct by: 08-30-17.

2.131(c)(1)

HANDLING OF ANIMALS.

The deer enclosure has an area that allows the public to approach the enclosure fence and feed the deer grain. There is no employee in the area for this public contact. A 2-3 year old buck is housed in this area and gets aggressive during rut. Grain and corn have been found in other animal areas from members of the public throwing it into the other animal enclosures. The grain may not be appropriate for the other animals that encounter the feed. An employee needs to be present for public contact or the barrier erected to prevent the public from coming into contact with these animals.

Correct by: 08-31-17.

3.125(a)

FACILITIES, GENERAL.

In the education area the animals are housed with sliding glass door fronts for access. The hedgehog enclosure was unlocked and the public had access to remove the animal or open the front of the enclosure as no employee(s) was in the area to monitor their actions. The enclosures must contain and protect the animals from possible injury, escape or theft.

Correct by: 08-09-17.

3.127(c)

Prepared By: ADAMS MEGAN, A C I USDA, APHIS, Animal Care

Date:
09-AUG-2017

Title: ANIMAL CARE INSPECTOR 1027

Received by Title: ANIMAL MANAGER

Date:
09-AUG-2017

Inspection Report

FACILITIES, OUTDOOR.

In the Possum, fox and raccoon enclosures the mulch was excessively wet and the animals had very little surface area that was dry. Wet bedding/mulch should be removed and fresh dry bedding/mulch provided. "Loki" the silver fox is on medication for allergies. A wet or damp environment is not conducive for the health and well being of the animals.

Correct by: 08-09-17.

This inspection and exit interview were conducted with the Owners and the Animal Manager. The inspection report is being sent via email.
