

Inspection Report

Arbuckle Adventures L L C
6132 Kay Starr Trail
Davis, OK 73030

Customer ID: **324698**

Certificate: **73-C-0190**

Site: 002

ARBUCKLE ADVENTURES, L L C

Type: ROUTINE INSPECTION

Date: 30-OCT-2017

2.5(d) REPEAT

DURATION OF LICENSE AND TERMINATION OF LICENSE.

The drive through area of the park is currently open for business, but is not an approved site. Site 002 (drive through site) is not a valid site and must be in complete compliance with all aspects of the Animal Welfare Act prior to being used for regulated activity.

2.131(d)(2) REPEAT

HANDLING OF ANIMALS.

Cups of feed are on sale in the gift shop, the drive through is open for business, cars are present in the park and no attendants were seen stationed at areas where animal feeding and public contact occurs.

A responsible, knowledgeable, and readily identifiable employee or attendant must be present at all times during periods of public contact.

3.125(a) REPEAT

FACILITIES, GENERAL.

In the spotted Hyena's enclosure, there is a section of the fence that is loose and needs to be stretched and securely fastened to the surrounding support poles. At the top of the fence there are two sections where the barbed wire of the kick in is loose and drooping. There is an additional area of the perimeter fence where it is bent and looks as if something could be jumping or climbing on it. This area is a potential source of ingress or egress and must be repaired.

All fencing in every section of the park must be maintained at all times in order to safely contain and prevent injury and/or entrapment to the enclosed animals.

In the area of the drive through next to the medical building there was an outside enclosure inhabited by a female pot belly pig that looked pregnant. She escaped from her previous enclosure with other pigs by going through a hole in the fence. The enclosure where she currently is does not contain a shelter from the elements. This hole in

Inspection Report

the fence is a potential source of injury and/or entrapment for any animals that might traverse it. This section of fencing needs repair and shelter from the elements provided for the female pig wherever she is contained.

All fencing in every section of the park must be maintained at all times in order to safely contain and prevent injury and/or entrapment to the enclosed animals.

Hole in pig fence repaired at time of inspection.

The inspection and exit interview were conducted with facility representatives.
