PONDVIEW KENNEL LLC

Type: ROUTINE INSPECTION

Date: 03-OCT-2016

3.11(d)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Two dogs were observed scratching inside of their enclosure. Upon closer observation there were some fleas present on the dogs abdomen and sides. When asked the licensee stated that he had not yet provided treatment for fleas. Fleas can transmit disease, cause other health related issues, and cause the dogs discomfort. The licensee must treat these dogs for fleas and ensure that an effective program is established and maintained to prevent an infestation of fleas and other insects, birds, and mammals that are pest for the health and well-being of the animals.

This inspection and exit interview were conducted with licensee.
