Cicero, NY 13039

Customer ID: **328550**
Certificate: **21-B-0182**
Site: 001
ACKS EXOTIC PETS

Type: ROUTINE INSPECTION
Date: 21-JAN-2016

2.40(a) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

*** The store employee could not locate or produce the program of vet care for review. When the facility has a consultant arrangement with a vet there must be a written program of vet care and regularly scheduled visits to the facility to assess the health and overall care of the animals. This documentation needs to be kept at the facility and in a location that is easily accessible for review during the inspection process.

2.76(a) REPEAT

RECORDS: OPERATORS OF AUCTION SALES AND BROKERS.

*** The store employee could not locate the records of animals on hand or the recent acquisition records (mini pigs, hedgehogs) or disposition records for animals that have been sold since last year. These records are an important part of the record keeping requirement to track the movement of the animals. These records need to be maintained in a timely and accurate manner and stored in a location that is easily accessible for review during the inspection process.

3.128

SPACE REQUIREMENTS.

*** The sugar gliders for sale in the store are being housed in tiered enclosures. Tiered enclosures do not provide sufficient space for adequate freedom of movement to allow the gliders to glide. Gliding is a normal postural adjustment and these animals need to be moved to enclosures that allow this.

Correct by: Jan 24, 2016

3.131(c)

SANITATION.

*** In the main store area, the area around the sugar gliders needs to be cleaned. There are droppings on the shelves below where food is stored and there is an un-used bird cage that is dirty with dust and debris. The area needs to be kept clean to facilitate good husbandry and housekeeping practices.

Prepared By: ANDREA D AMBROSIO, A C I USDA, APHIS, Animal Care

Inspection Report

*** The area behind the sugar gliders in the back room needs to be cleaned as well as their exercise wheels. These areas also need to be kept clean for the health of the animals.

Correct by: Jan 24, 2016

An exit briefing was conducted with a facility representative at the time of the inspection.
