2.31(c)(1)

Institutional Animal Care and Use Committee (IACUC).

During record review, it was discovered that the Institutional Animal Care and Use Committee (IACUC) failed to review their program for humane care and use of animals at the required six-month interval. The last review was performed on June 12, 2024 and was next due by December 2024. However, it was not completed until May/June 2025. Failure to review the program for humane care and use of animals at the interval indicated within the Animal Welfare Act (AWA) could negatively impact the animals covered under the program by misidentifying program discrepancies, and therefore effect their welfare. With respect to activities involving animals, the IACUC, as an agent of the research facility, shall review, at least once every six months, the research facility's program for humane care and use of animals, using title 9, chapter I, subchapter A – Animal Welfare, as a basis for evaluation.

2.31(c)(3)

Institutional Animal Care and Use Committee (IACUC).

During record review, it was discovered that the Institutional Animal Care and Use Committee (IACUC) failed to submit the reports from their 2024 program for humane care and use of animals review and 2024-2025 facilities inspection to the Institutional Official (IO). Failure to provide these reports to the IO hinders their ability to verify the facility's compliance with the Animal Welfare Act. The facility must prepare reports of its evaluations conducted as required by paragraphs (c)(1) and (2) of this section, and submit the reports to the Institutional Official of the research facility.
