

## Inspection Report

Godwins Gatorland Inc  
14501 S Orange Blossom Tr  
Orlando, FL 32837

Customer ID: 3251  
Certificate: 58-C-0014  
Site: 001  
GODWIN'S GATORLAND, INC.

Type: ROUTINE INSPECTION  
Date: 06-MAY-2015

### 2.131(b)(1)

#### HANDLING OF ANIMALS.

The licensee allows the public (under direct supervision) to feed the panthers using a feeding stick with a flat edge. This type of edge does not minimize the risk of injury to the cats as they are being fed.

The use of feeding tongs is recommended for this type of public feeding to minimize the risk of injury. You may also modify the end of the current feeding stick (or other modifications or implements) to minimize potential injury during the feeding interactions.

Correct by May 8, 2015

### 3.129(b)

#### FEEDING.

The feeding stick that is being used by the public to feed the panthers has accumulations of old, dried, crusty remnants of meat around the top and bottom of the raised orange marker on the stick. There were live weevils in the omnivore feed receptacle. Both of the deer feed troughs also had accumulations of old, dried, white, avian fecal droppings.

These conditions do not minimize contamination of the food by bacteria &/or parasites which can potentially harm the animals.

All food receptacles and implements shall be kept clean and sanitary at all times.

Correct by May 8, 2015

Due to difficulties in preparing this report on site, it will be E mailed to the Supervisor of the Animal Care Dept. The exit interview was conducted on-site with the Supervisor of the Animal Care Dept.
