2.126(b)

Access and inspection of records and property; submission of itineraries.

A responsible adult was not available to accompany APHIS Officials during the inspection process at 12:45 on March 3, 2025. The inspector attempted to contact the licensee/registrant by phone and email. The licensee called back and informed the inspector that he had reached out via email 6 months ago to the previous inspector to inform the program that all regulated species were sold from the facility and no regulated activity was occurring. Next steps were discussed on the call.

Failure to provide access to the facility, animals, and records for inspection is a serious violation of the AWA and regulations. Failure to comply may result in enforcement action.
