Southwest Virginia Wildlife Center of Roanoke  
5985 COLEMAN RD  
ROANOKE, VA 24018

Customer ID: **334200**

Certificate: **52-C-0280**

Site: 001

SOUTHWEST VIRGINIA  
WILDLIFE CENTER OF  
ROANOKE INC

Type: ROUTINE INSPECTION

Date: 18-APR-2023

---

### 2.40(a)(1)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The facility does not have a written program of veterinary care identifying their part-time attending veterinarian. The facility employs a part-time veterinarian to provide veterinary care to the animals but there is no written program of veterinary care. A written program of veterinary care is important to ensure there are formal arrangements between the facility and the attending veterinarian regarding health care for the animals and regularly scheduled visits to the premise. Correct by April 25, 2023 by ensuring there is a written program of veterinary care identifying the Attending Veterinarian and regularly scheduled visits to the premises.

### 3.127(d)

#### Facilities, outdoor.

The facility does not have a perimeter fence surrounding the outdoor opossum enclosures. A perimeter fence serves as additional protection for the animals by restricting animals and unauthorized persons from having direct contact with the animals as well as providing a secondary containment system for animals inside the facility if they should escape their primary enclosure. Correct by May 16, 2023 by ensuring all outdoor housing facilities are enclosed by a perimeter fence at least 6 feet high.

## Inspection Report

---

### Sanitation.

There is an excessive accumulation of trash and junk behind the education animal housing area. According to the facility, a building was just removed and they are continuing to remove old trash, debris, and accumulations of junk in preparation for a new building to be installed. It is important that the premises around buildings are kept clean to protect animals from injury if they were to escape and to prevent the harborage of pests. Correct by May 9, 2023 by ensuring all premises are kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in Subpart F.

This inspection and exit interview were conducted with facility representatives.

### Additional Inspectors:

Kristina D'Apice, VETERINARY MEDICAL OFFICER
