BAR SGR LLC  
32193 WINERY WAY  
LEWES, DE 19958

Customer ID: **6192**  
Certificate: **50-C-0013**  
Site: 001  
BAR-SGR, LLC

Type: ROUTINE INSPECTION  
Date: 31-JUL-2024

---

### 3.125(a)

#### Facilities, general.

There are sections of loose wire strands covering the inside of the livestock panels in the front goat enclosure housing 11 offspring. The loose wire could injure the goats during feeding or contact with the public. The loose wire sections and strands must be removed, replaced, or repaired to prevent possible injury to the goats. Correct by August 30, 2024.

### 3.154

#### Environment enhancement to promote psychological well-being.

An environment enhancement plan (EEP) has not been established to promote the psychological well-being of the chickens and turkeys. Failure to establish and maintain an EEP can result in birds not receiving adequate enrichment which can lead to behavior, social, health, and other psychological problems. The plan must address at a minimum social grouping, environment enrichment, special considerations, restraint devices, and any birds that are exempted by the attending veterinarian because of health issues or other conditions. The plan must be approved by the attending veterinarian. Licensee must establish and maintain an EEP for the birds. Correct by August 30, 2024.

This inspection and exit interview were conducted with the manager.
