Records: Dealers and exhibitors.

The licensee is using a cage card system to keep an inventory of puppies less than 16 weeks old. Cage cards have not been completed for the 27 puppies on hand. Also the inventory listed on the 7005 has not been updated to reflect seven of the 41 breeders on hand. These records must be kept up to date in order to accurately reflect the number of dogs at the facility. This information is necessary for APHIS inspectors to review to ensure compliance with the AWA. Update these records and maintain them from this point forward.

2.50(a)(2)

Time and method of identification.

The facility is using a cage card system to identify puppies less than 16 weeks of age. The 27 puppies on hand at the facility have not had cage cards completed for them. These puppies do not have the required identification. Completed cage cards must be kept in order to properly identify puppies or another approved system must be implemented. This information is necessary for APHIS inspectors to ensure that there is proper facility tracking of inventory. Identify all puppies less than 16 weeks of age from this point forward.

Inspection Report

2.40(a)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The attending veterinarian has detailed in the program of veterinary care that monthly heartworm preventative will be used for dogs at the facility. The licensee stated that that has not been done since Spring 2020. Each dealer shall assure that the attending veterinarian has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use. The licensee must follow all preventive care recommendations of the attending veterinarian in order to ensure the best health of the dogs at the facility. Review the program of veterinary care with the veterinarian and follow all directions contained in the PVC.
